April 3, 1980

Mr. Clayton L. Simon
Louisville Varnish Company
P. O. Box 1255
Louisville, KY 40201

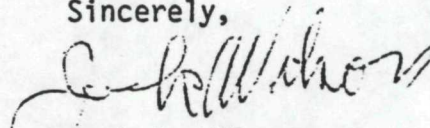

Dear Mr. Simon:

Your effort to identify drums and materials at the "Valley of the Drums" is greatly appreciated. Identification of this material and its removal will reduce the total clean-up cost and is viewed by the Bureau of Environmental Protection as a positive response to this problem by a responsible Kentucky industry.

The sensitivity of this site will require analytical workup of any material before its removal from the site. I will also need to review your current "disposal procedures" to confirm their adequacy for the disposal of this material.

I will be happy to meet with you when you have a specific proposal for the analytical work and a description of your disposal procedures which we can discuss.

Sincerely,

Jack A. Wilson
Commissioner
